Ready to be FSI compliant? *We are here to help!*

The future of horticulture is all about sustainability, transparency, and responsibility. **MPS offers the solutions to be FSI compliant, for all growers.**

NEW

Data-driven solutions

Your 4 steps to success:

- **Start strong:** Monitor your environmental footprint with MPS-ABC.
- **Step up:** MPS-GAP ensures responsible cultivation practices.
- **Stay ahead:** Align with FSI standards well before 2026.
- **Relax:** MPS supports you every step of the way.

MPS makes sustainability simple

- **For all types of growers:** MPS-ABC supports companies in measuring and improving their sustainability performance. It enables compliance with FSI standards while offering insight into the environmental impact of water, energy, crop protection agents, water, and waste.
- **Data-driven sustainability:** MPS-Insights turns your record-keeping data into actionable insights, helping you track trends, benchmark performance, and make smarter, more sustainable decisions for your business: without audits and certification.
- **Social responsibility:** MPS-SQ supports compliance with international social standards, ensuring safe, fair, and ethical working conditions.

The HortiFootprint Calculator

Measure and track your environmental footprint with ease.

- ✓ Fully compliant with FloriPEFCR & FSI standards.
- ✓ Meet the growing demands of retailers and traders.
- ✓ Gain clear insights for sustainable growth.
